Product Notification – DOC #1654980

Affected Parts: SFM150/SFM075-6005

Dear Valued Customer:

You are receiving this notice because your company has purchased the Part Number listed above in the previous two years.

To improve the pricing, availability, and quality of the 1-1/2" to 3/4" SF Reducer SFM150/SFM075-6005, Nordson MEDICAL is transitioning the manufacturing location from a third-party partner to our injection molding facility in Loveland Colorado. As part of this move, SFM150/SFM075-6005 will be produced in new tooling with minor design improvements to bring the flanges into compliance with ASME/BPE Specifications. The part number and raw materials will not change.

The change in manufacturing location will be identified by lot number and the VP logo will be present on the new Loveland molded parts. This is a rolling change expected to take place in April 2025. The original version will no longer be available after this change comes into effect. Opportunities for last time buys are available until March 31, 2025.

We hope that this change comes as a welcome benefit to our customers, but if you have any additional technical questions, please contact your Sales Account Manager or our customer service team at orders@nordsonmedical.com. We appreciate your business and want to thank you for choosing Nordson MEDICAL.

Sincerely,

A handwritten signature in black ink, appearing to read "JC" followed by a long, sweeping flourish.

Josh Curry
