Product Notification – DOC #1766780
-9002 Trinseo Calibre Megarad 2081-15 Continued Supply

Dear Valued Customer:

Nordson MEDICAL has taken a proactive approach to the global shortage of *Trinseo Calibre Megarad* polycarbonate materials and the recent facility closure by Trinseo in Stade, Germany. Working closely with Trinseo, the Nordson MEDICAL has ensured that continued supply is available of resin material without interruption. The material affected in the Nordson MEDICAL portfolio includes all parts with a “-9002” suffix at the end of the part number, which pertains to *Trinseo Calibre Megarad 2081-15 SC030006*.

The base resin manufacturing location has moved from Germany to the United States and the location of final compounding by Trinseo remains unchanged, in Tennessee. As a customer of Nordson MEDICAL, you will see **no change** in the below information:

- Composition or CAS #
- Product Names from Trinseo or Nordson MEDICAL
- Additives or colorants
- Technical Data Sheets
- Safety Data Sheets
- Certificates of Conformance
- Material Compliance Memos

Nordson MEDICAL proudly strives to provide best-in-class pricing, lead time and service to its customers, and for any additional technical questions, please contact your Sales Account Manager or our customer service team at orders@nordsonmedical.com. We appreciate your business and want to thank you for choosing Nordson MEDICAL.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jordan Berkel'.
