## Product Change Notification

**Product Change #:** 277

**Posting Date:** March 12, 2014

**Description of Change:** Previous part number SCV01092 will now be sold as part number SCV06265.

### Differences Between SCV01092 and SCV06265:

1. The shape of the tube connections is identical between 01092 and 06265.
2. Technical Specifications that have been adjusted on the 06265:  
Crack Pressure:  $\leq 6$  mbar (.087psig) --- SCV01092 is  $\leq 0.174$ psig  
Maximum Back Pressure: 8 bar  
Burst Pressure: 8 bar (at room temperature in flow directions for 15 seconds air overpressure)

### **Reason:**

Improvements have been made to opening pressure, maximum back pressure, and burst pressure. The raw material and shape of the tube connector remain unchanged.

**Parts Affected:** SCV01092, SCV06265

**Effective Date:** 6/1/2014

### **Implementation Procedure:**

We expect to have inventory of the previous components for the typical 90-day timeframe.
