Before

After

Reason: Changes needed to meet production growth.

Parts Affected: N420-1, N420-2, N420-20, N420-J1A2, N420-6005, N420-J1A, N430/420-1, N430/420-2, N430/420-6005, N430/420-6012, N430/420-J1A, N430/410-1, N430/410-2, N430/410-6005, and N430/410-J1A

Effective Date: Samples are currently available for the N430 reducers. Samples for the N420 straights are expected to be available December 2017.

Implementation Procedure: New products will be produced and move into inventory when the mold improvement is completed. The current product version will ship until inventory is exhausted. New products will then begin shipping, trackable by Lot Number. Note, we will endeavor to ship orders complete with a single lot number.
