Prevent leakage with Nordson MEDICAL’s line of LinkTech 70 Series quick connect couplings featuring non-exposed seals and plastic thumb latches.

**SHOP ONLINE AT NORDSONMEDICAL.COM/SHOP**

**PLASTIC LATCH COUPLINGS WITH NON-EXPOSED SEALS**

70GP Series quick connect couplings offer 1/4” flow capacity with a reliable plastic thumb-latch. These couplings feature non-exposed seals bringing improved durability to their performance. Their easy-to-grip, advanced plastic latch and shroud helps prevent accidental disengagements. Manufactured in a high-performance glass-filled polypropylene material makes these couplings corrosion resistant adding to their improved durability.

**FEATURES & BENEFITS**

- Non-exposed seals, advanced plastic thumb-latch couplings
- Easy-to-grip plastic latch
- Shroud helps prevent accidental disengagement
- Chemical and corrosion resistant
- In-line straight (barbed) styles
- **Operating pressure**: Up to 45 psi (3.1 bar)
- **Temperature**: 32˚F to 150˚F (0˚C to 66˚C)
- **Flow capacity**: 1/4”

**70 SERIES MATERIALS INFORMATION**

- **Bodies and Terminations**: Glass-filled polypropylene
- **Internal Valves**: Glass-filled polypropylene
- **Internal Valve Springs**: 316 Stainless Steel
- **Latch Spring**: Stainless steel
- **Non-exposed Seals**: Ethylene propylene diene monomer (EPDM)
- **Thumb Latch**: Glass-filled polypropylene
- **Fits Tubing IDs**: 1/4” (6.4 mm), 3/8” (9.5 mm)
